

■■ Server Deployment & Infrastructure Inventory

Server Hostname: server.sannainnovations.com | Primary IP: 103.160.144.225 | OS: Ubuntu Linux 5.4.0

Total Active Projects 13 Applications	Docker Stack Containers 34 Containers	PM2 Background Services 3 Managed Apps	Nginx Virtual Hosts 16 Domains/Subdomains
--	--	---	--

#1 - Intern Tracker App

● RUNNING (ACTIVE)

Domain / SSL:	tracker.sannainnovations.com
Containers / PM2:	intern-tracker (Python Web App), tracker-mongodb (Mongo 4.4)
Ports & Bindings:	127.0.0.1:9050 -> 5000/tcp DB: 27017 (Internal only, no host port)
Volumes & Paths:	Network: tracker-network Volume: /root/mongodb_data
Description & Notes:	Main Python intern tracking web app. Database isolated on internal docker network with zero exposed host ports for maximum security.

#2 - Astra CRM

● RUNNING (ACTIVE)

Domain / SSL:	astracrm.theastraai.com (Aliases: astracrm.sannainnovations.com , crm.sannainnovations.com)
Containers / PM2:	PM2: astra-crm-api (PID 4) Nginx Static Dist
Ports & Bindings:	Backend Express API: Port 5001 (proxied at /api/ & /health) Frontend: Nginx (80/443)
Volumes & Paths:	Web Root: /var/www/astra-crm Backend: /var/www/astra-crm/backend DB: astra_crm_dev.sqlite
Description & Notes:	Production SaaS CRM platform with multi-tenant architecture, sales pipeline, quotation engine, and billing automation.

#3 - Sanna LMS Microservices Platform

● RUNNING (ACTIVE)

Domain / SSL:	sannalms.sannainnovations.com Admin: admin.sannalms.sannainnovations.com
Containers / PM2:	21 Containers: sannalms-kong, sannalms-keycloak, kong-db, sannalms-user-service, sannalms-auth-service, sannalms-course-service, sannalms-college-service, sannalms-assessment-service, sannalms-assignment-service, sannalms-coding-service, sannalms-ai-service, sannalms-postgres, sannalms-redis, sannalms-minio, sannalms-nginx, etc.
Ports & Bindings:	8085 (Web UI), 8086 (Admin UI), 8180 (Keycloak IAM), 8010/8011/8445/8446 (Kong Gateway), 5433 (Postgres), 6380 (Redis), 9090/9091 (MinIO S3), 4003/4004/4005/8008 (Services)
Volumes & Paths:	Network: sannalms_default Path: /root/SannaLMS Volumes: sannalms_postgres_data, sannalms_redis_data, sannalms_minio_data, sannalms_kong_data
Description & Notes:	Full microservices enterprise Learning Management System backed by Kong API Gateway and Keycloak Identity Provider.

#4 - MedAI Healthcare Platform

● RUNNING (ACTIVE)

Domain / SSL:	medai.sannainnovations.com
---------------	---

Containers / PM2:	medai_frontend_1 (Next.js), medai_backend_1 (FastAPI), medai_db_1 (Postgres 16), medai_redis_1 (Redis 7)
Ports & Bindings:	Frontend: 3099 -> 3000 Backend: 8099 -> 8000 DB: 5432 Redis: 6379
Volumes & Paths:	Network: medai_default Volume: medai_medai_pgdata
Description & Notes:	AI-assisted medical diagnosis and clinical web application platform.

#5 - Astra Ads / Sanna Ads Lead Management

● RUNNING (ACTIVE)

Domain / SSL:	astraads.sannainnovations.com astraads.theastraai.com ads.sannainnovations.com
Containers / PM2:	Docker: astraads-app PM2: sanna-lead-api (PID 5)
Ports & Bindings:	App Container: 8090 -> 3000 Backend API: 5050
Volumes & Paths:	Network: astraads_default Web Root: /var/www/sanna-ads-lead Volume: astraads_astraads-data (/var/data)
Description & Notes:	Lead ingestion and digital ad campaign telemetry management suite.

#6 - MIS Portal (Sanna MIS)

● RUNNING (ACTIVE)

Domain / SSL:	mis.sannainnovations.com
Containers / PM2:	mis_portal (Python Django/FastAPI)
Ports & Bindings:	Host Port: 8000 -> 8000/tcp
Volumes & Paths:	Network: mis-sanna_default Binds: /root/mis-sanna/backend & /root/mis-sanna/frontend
Description & Notes:	Management Information System analytics and reporting dashboard.

#7 - AI Trip Planner

● RUNNING (ACTIVE)

Domain / SSL:	travel.sannainnovations.com
Containers / PM2:	Gunicorn / Python Flask Backend + Nginx Static Frontend
Ports & Bindings:	Internal Backend Port: 5002 (proxied via Nginx at /api/)
Volumes & Paths:	Web Root: /var/www/ai-trip-planner/frontend Code: /var/www/ai-trip-planner
Description & Notes:	Intelligent travel itinerary generator and booking assistance web app.

#8 - TradeSense Analytics

● RUNNING (ACTIVE)

Domain / SSL:	tradesense.theastraai.com
Containers / PM2:	PM2: tradesense (PID 2, Next.js v16.2.10)
Ports & Bindings:	Host Port: 127.0.0.1:3000 (proxied via Nginx)
Volumes & Paths:	Web Root: /var/www/tradesense
Description & Notes:	Real-time stock market telemetry and financial portfolio analytics app.

#9 - AstraFlow Workflow Engine

● RUNNING (ACTIVE)

Domain / SSL:	astraflow.sannainnovations.com astraflow.theastraai.com
Containers / PM2:	Node.js Express Service + React Frontend
Ports & Bindings:	Internal Backend Port: 9000 (proxied at /api/ & /uploads/)
Volumes & Paths:	Web Root: /var/www/astra-flow
Description & Notes:	Enterprise workflow builder, task automation, and team collaboration portal.

#10 - Sanna Web (Main Corporate Site)

● RUNNING (ACTIVE)

Domain / SSL:	sannainnovations.com www.sannainnovations.com
Containers / PM2:	Node.js API + Nginx Static Frontend
Ports & Bindings:	Internal API Port: 3000 (proxied at /api/)
Volumes & Paths:	Web Root: /var/www/sanna-web
Description & Notes:	Official corporate portal for Sanna Innovations with integrated Lead & Authentication redirects.

#11 - The Astra AI Landing Portal

● RUNNING (ACTIVE)

Domain / SSL:	theastraai.com www.theastraai.com
Containers / PM2:	Nginx Static Site
Ports & Bindings:	Served via Nginx (80/443)
Volumes & Paths:	Web Root: /var/www/astra-ai
Description & Notes:	Official landing page and brand showcase for The Astra AI product ecosystem.

#12 - Digital Marketing Portal

● RUNNING (ACTIVE)

Domain / SSL:	digitalmarketing.sannainnovations.com
Containers / PM2:	Node.js Service + Nginx Frontend
Ports & Bindings:	Internal API Port: 5050 (proxied at /api/)
Volumes & Paths:	Web Root: /var/www/sanna-lead-project
Description & Notes:	Digital marketing leads portal and promotional landing page platform.

#13 - Hipapa Hosting / Default Server Entry

● RUNNING (ACTIVE)

Domain / SSL:	103.160.144.225 server.sannainnovations.com hipapa.in www.hipapa.in
Containers / PM2:	Directus / Node API + Nginx Static Host
Ports & Bindings:	API Port: 8055 (proxied at /api/)
Volumes & Paths:	Web Root: /var/www/hipapa-hosting
Description & Notes:	Default web server fallback block handling IP requests and root domain host routing.
